

# THE ALLIANCE

...for responsible development of Alaska's Oil, Gas & Mineral Resources

For more than 25 years, the #1 goal of the Alliance has been to "Promote a Favorable Business Climate through Strong Government Relations."

This goal provides the background for our legislative priorities and policy statements listed below.

## 2018 Legislative Priorities

### Establish a sustainable long-range fiscal plan:

- Limit FY 2018 unrestricted general fund (UGF) spending to \$4.0 billion or less, and
- Implement a plan to use a portion of the earnings generated by the Permanent Fund for essential government services.

### Prioritize full reimbursement of tax credit obligations this year and next.

## 2018 Policy Statements

- **Oil: DO NO HARM.** Maintain or implement policies that increase production, attract investment and encourage exploration and development.
  - We oppose HB 288
  - We oppose HB 322
- **Gas:** Continue to progress a viable LNG project.
- **Mining:** Maintain permitting and tax systems that attract investment.
  - We oppose HB 199
- **Infrastructure:** Invest in necessary infrastructure that makes exploration, development and production of our natural resources competitive with other jurisdictions.
